I understand that massage therapy does not diagnose. It has been made clear to me that this massage therapy session is educational in nature and intended to help me become more familiar with and aware of my own health status and make me more comfortable in my body.
Because a massage therapist must be aware of existing physical conditions, I have stated all my known medical conditions and take it upon myself to keep the massage therapist updated as to my physical health.
With this in mind, I agree to have massage therapy treatment(s) and hold the therapist harmless for any problems that might arise as a result of the massage.
